

CASE STUDY:

Meadow Road

åben|interiors

Project Objective

This apartment was part of a bigger development of 1 and 2 bedroom flats. Our client wanted to showcase the whole project by creating a show apartment for marketing photos and viewings.

They employed our home staging services to create a show home to show off the apartment.

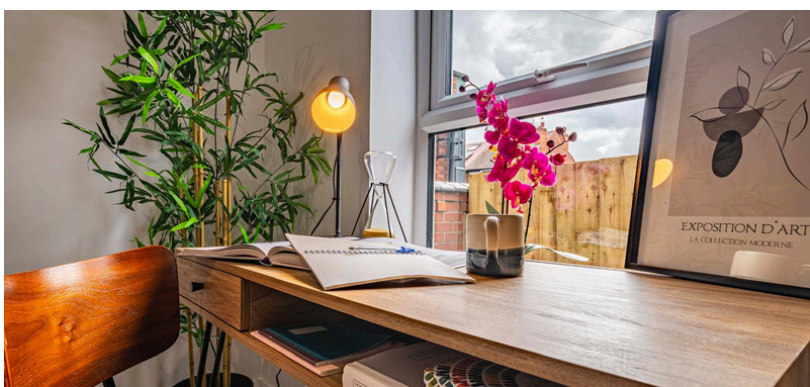

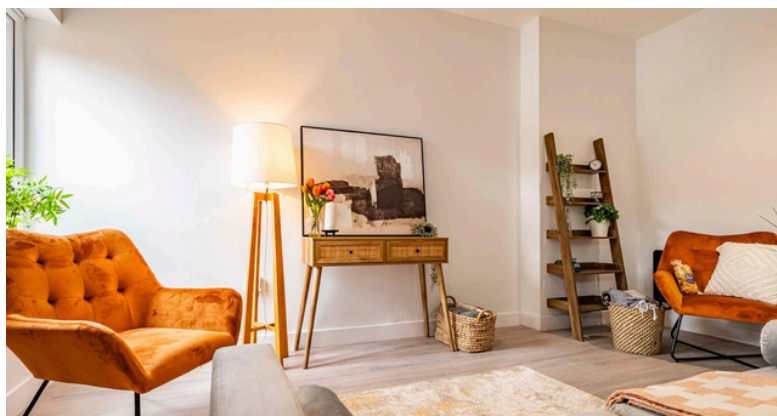

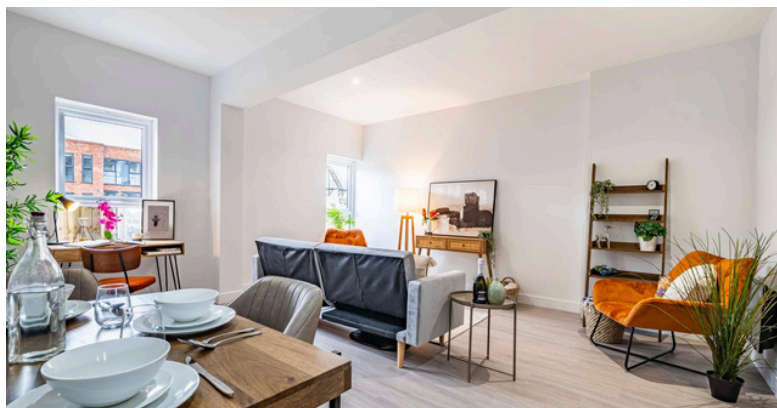

Solution

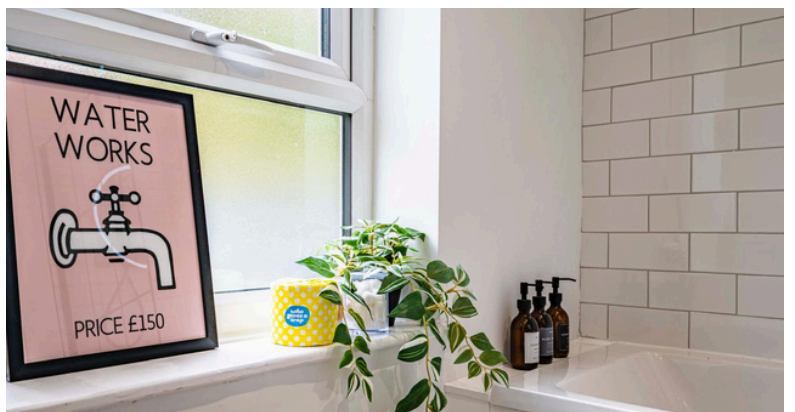

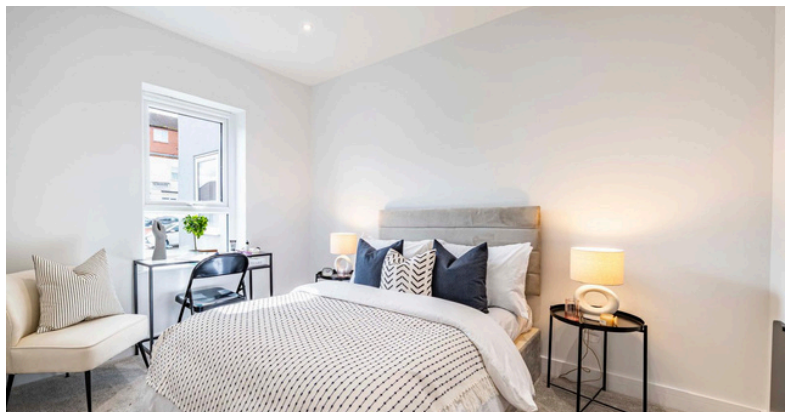

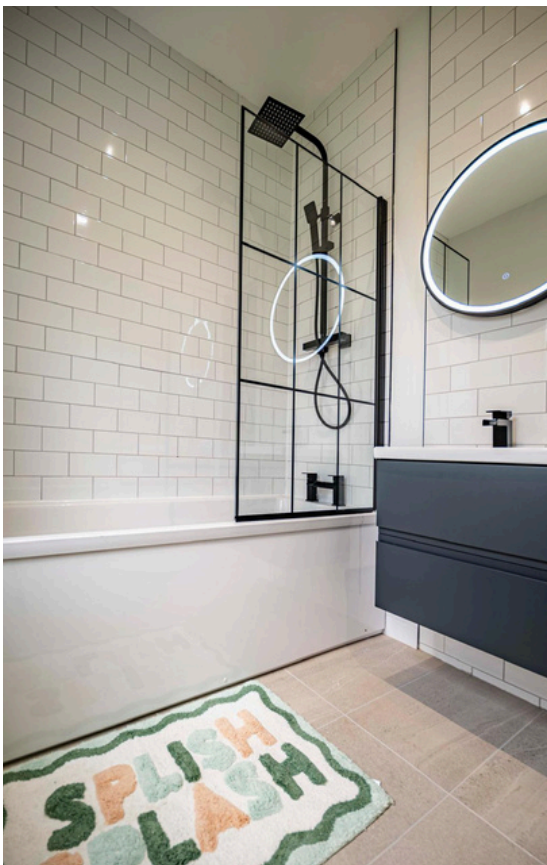

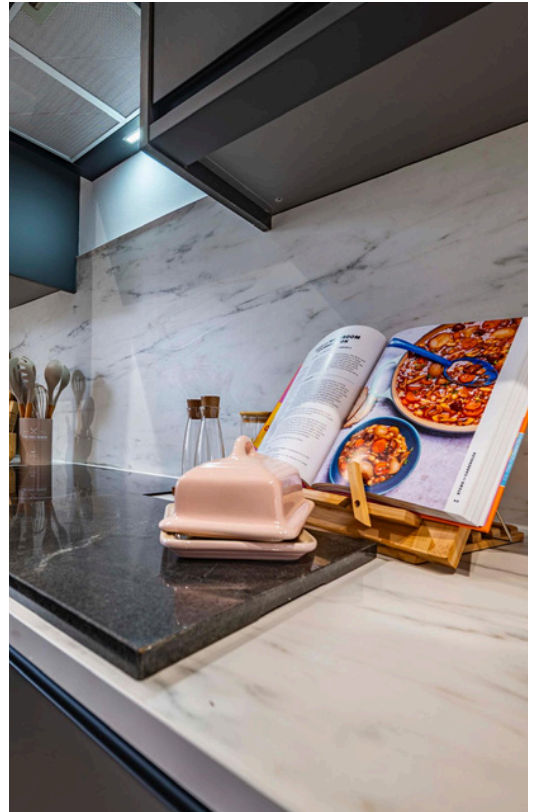

With a fairly plain colour scheme across the property and a lovely modern finish, we focused on adding pops of colour with our furniture and accessories.

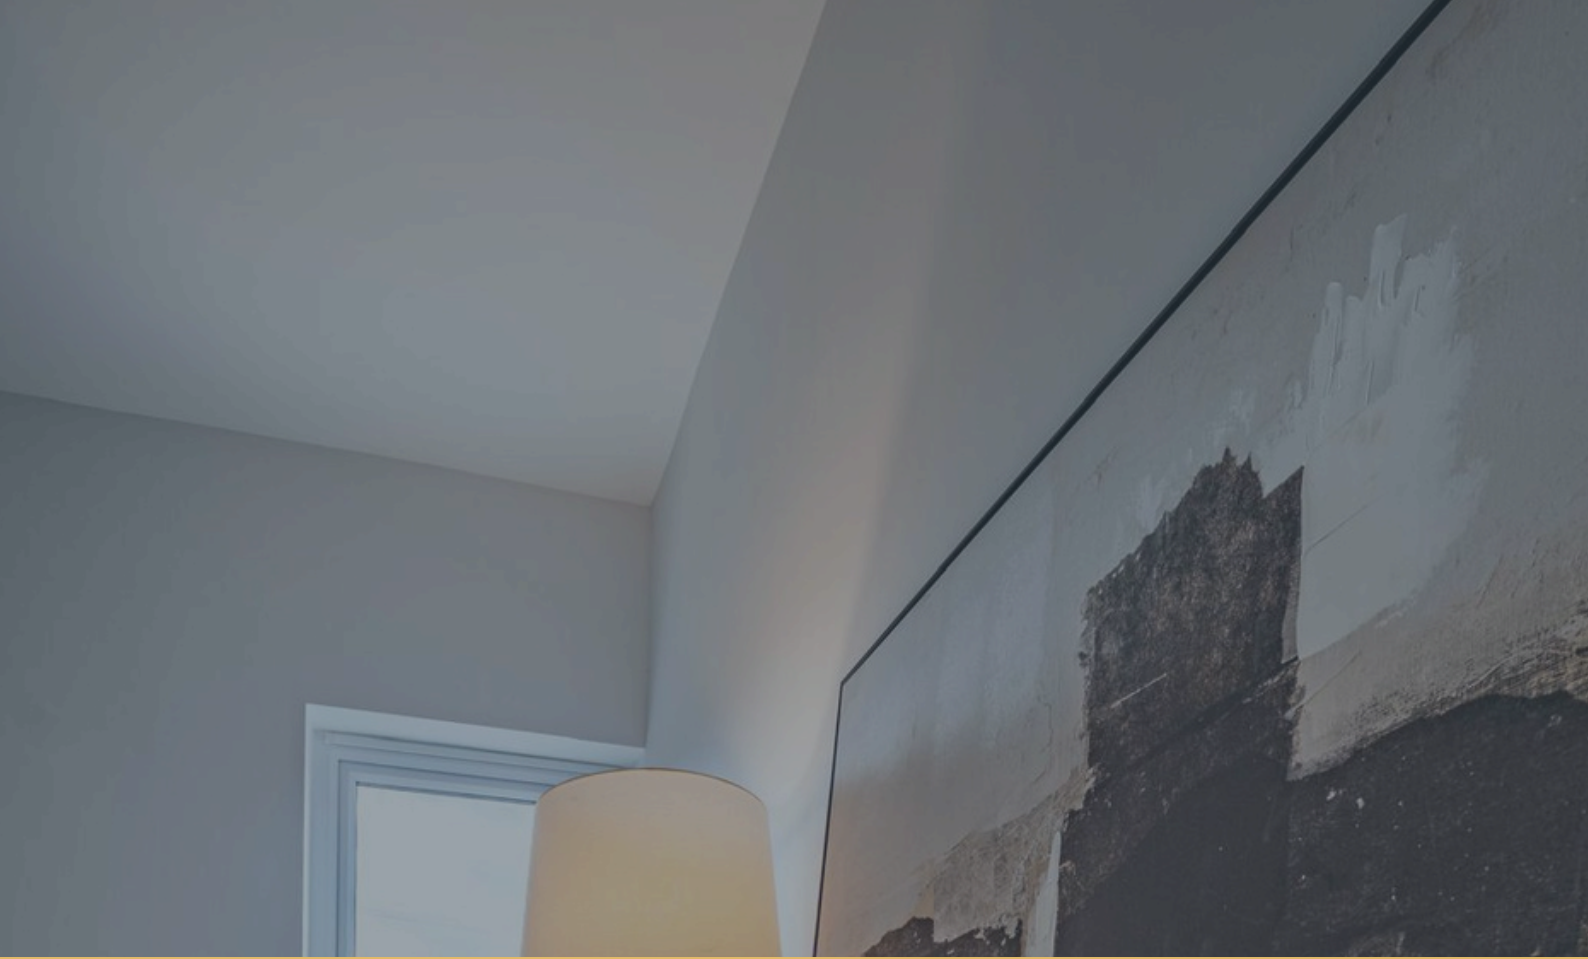

The open plan living space has been split into living, dining and an office space to showcase how versatile the apartment can be and helping to attract the young professional target buyers.

Services provided

Show home creation/Property staging
